

# KRQ-2

SERIES

## DESCRIPTIONS:

- Pressure switch used for air compressors.
- The switch start and stop the air compressor automatically according to the setting pressure value.
- Hydraulics connection can choose:1/4"Male&Female.
- Air-relief valve with delayed closing system.
- Customized setting.

## OPTIONALS:

- Crust according to customers' needs.
- Hydraulics connection according to customer needs.
- Air-relief valve of 6mm or 1/4" diameter pipe.
- Pressure setting according to customer's needs.

## THCHNICAL DATA:

- Pressure Range:20-175psi
- Pressure Setting:20-50psi, 30-60psi, 40-70psi, 50-80psi, 95-125psi, 135-175psi
- Rated Current:12A
- Rated Voltage: 110V-240V
- Frequency:50/60Hz
- Max Ambient Temperature:40°C
- Protection Degree:IP20

## KRQ-2 TECHNICAL PARAMETERS:

Packing Size	One Way/Four Way
Dimension	44*29*29 cm
Quantity	50 pcs/ctr
N.W/g.w	16/18 kgs
